PRESS RELEASE

Linutop announces Linutop.TV a new Digital Signage Service!

Linutop.TV is a brand new and affordable service for essential Digital Signage needs.

Paris, France – June 6th, 2012 – Today Linutop, specialized in Small Linux PC launches a Digital Signage Service: **Linutop.TV**.

Linutop.TV is an online playlist edition and broadcast service. This service enables to build playlists from various Media files (photos, videos, WebPages ...) and broadcast them remotely on a screens network.

Linutop.tv is Digital Signage Solution, energy-efficient, quick to setup and affordable.

Linutop.TV Service's Benefits:

- **Affordable:** economic model with no time commitment starting at starting at 20€/month per screen. Energy efficient solution.
- **Online editing made simple:** accessible from any web browser (no software installation needed).
- **Automated broadcast:** 24/24, 7/7 ability to display offline, with low bandwidth use.
- **Security:** Remote secured management of screens networks.
- **Compatibility:** Linutop Computers or PC with Linutop OS.

Use cases:

- With a low maintenance cost, **Linutop.TV** is perfect in professional and industrial environments, schools, universities, hotels, restaurants, commercial display, museums, kiosks, waiting room and any public location.
- **Linutop.TV** is a great tool for communication agencies, enabling direct broadcast of their messages to customers.

Linutop in brief

Linutop is a small, Linux-based PC intended for accessing Internet, Digital Signage, Monitoring and more. Linutop Operating System, Linutop OS, is now available on PC as well. Its stability and small size are perfect for specific uses. Linutop.TV nicely completes Linutop products by offering a Digital Signage management tool over the Web. Any Linutop computer or PC with Linutop OS can be used as Linutop.TV's player for Digital Signage.

Linutop.TV Service is available now: {[HYPERLINK "http://www.linutop.tv/"](http://www.linutop.tv/)} (starting at 20€/month)
