## PRESS RELEASE

### **Linutop OS is now available for Raspberry Pi in Noobs Format.**

*The fastest way to install the Linutop OS and its Kiosk suite.*

**Paris, France – May 30<sup>th</sup>, 2017** – LINUTOP, specialized in energy-efficient IT solutions, today announced that the latest version of its Operating System Linutop OS is now accessible in Noobs format for Raspberry Pi.

- **Linutop OS** can convert any Raspberry Pi into a secure Internet access point or Digital Signage System.

- **Noobs format** (New Out Of Box Software) allows an system installation with a simple file copy on a micro SD memory card.

After downloading the Noobs file a direct copy on a new SD card is enough to run in Raspberry Pi. No Installation software needed, Noobs is really the fastest way to startup, after a few minutes, the software will be installed automatically and users are able to enjoy their Raspberry Pi on Linutop OS.

- **Benefits of Linutop OS:**

- Ready to use & Quick to configure
- Hardware acceleration for VLC (HD quality Video)
- Security and privacy
- Boot Time < 30 seconds

- **Digital Signage** – Linutop Kiosk can be configured to display full screen: images (JPEG, PNG...), URLs, Web Page, music, HD video files and even PDF, from a local or network directory ok a Linutop.tv broadcast system.

- **Linutop Kiosk** – Designed to configure a secured Internet access point and/or Digital Signage in few clicks: with toolbar or not, to block certain websites or to lock on designated websites.

- **Power saving** – Raspberry Pi has a very low power consumption and Linutop Kiosk software allows to program a screen power down.

- **Possible Uses** – Receptions, showcases, intra corporate or secured internet kiosk. Schools, hostels, stores, restaurants, museums, town halls, libraries, offices ...

**Compatibility:** Raspberry Pi: Zero, A, A+, B, B+, 2 and 3.

**Availability:** Free version: [www.linutop.com/software/download.en.html](http://www.linutop.com/software/download.en.html)
